

60 / 100 P

Solutions Sheet

Nina Fischer and Yannick Zelle

December 7, 2021

Exercise 1

Exercise 2

For details see attached notebook. The resulting plots are:

Your MDS-function looks fine! Unfortunately, there rises an error while running $\text{fullMDS}(X, 5, 20)$ But overall you understand the procedure!

40 / 60 P

Figure 1: Swiss Roll

Figure 2: PCA

Figure 3: MDS with k-nearest neighbour graph with $k = 5$

Figure 4: MDS with epsilon graph with $\epsilon=20$
